*If you will not fight for right when you can easily win without blood shed; if you will not fight when your victory is sure and not too costly;*

*you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival.*

*There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than to live as slaves.*

Pinterest

I liked this quote because it is very true. If you know nothing about history then you will be lost in the world. So many things in the present depend on the past.
